Dell™ recommends Windows® XP Professional.

If you do not wish to receive future mailers from Dell™, please contact : Dell™ India Pvt. Ltd., Divyasree Greens, Ground Floor, S.No. 12/1, 12/2A, 13/1A, Challaghatta Village, Varthur Hobli, Bangalore South, Bangalore - 560 071, Tel: 91-80-25357311, Fax: 91-80-25357314. Please include the ID number that appears on the address label in your communication.

Terms & Conditions Apply

**Sales taxes or value added tax, local taxes and any other applicable levies are additional. By delivery only. Delivery charges are additional depending on product type: Inspiron (Rs. 999), Latitude (Rs. 1,156), PowerEdge (Rs. 2,527), PowerVault (Rs. 2,527)

1 For hard drives, GB means one billion bytes, actual capacity varies with preloaded material and operating environment and will be less. 2 Technician, replacement part or unit (depending on service contract) will be dispatched if necessary following phone-based troubleshooting. Subject to availability of parts, geographical restrictions (on site and/or next business day service not available in some locations) and terms of service contract. Service timing dependent upon time of day call placed to Dell. Defective unit must be returned or paid for. Replacements may be refurbished. 3 The DVD region code can be changed up to 5 times and will then be locked so that it plays only DVD movies from the final region code selected. 4 Between 32MB & 224MB of system memory will be allocated to support graphics, depending on the system memory size and other factors. 5 The term does not connote an actual operating speed of 1Gb/sec. For high speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required. 6 CompleteCover service is available for personal computers. It excludes theft, loss, and damage due to fire or intentional damage. Customer may be required to return unit to Dell. For complete details, refer to CompleteCover service agreement found at www.dell.com/ap/services. This service is only available in selected countries. 7 The total of local and shared system memory used by this graphics card is up to 256MB. Local on-board memory is 128MB. Up to 128MB of system memory may be allocated to support graphics, depending on system memory size and other factors.

System performance measured by MobileMark® 2002. System performance, battery life, wireless performance and functionality will vary depending on your specific hardware and software configurations.

Control network traffic.

Affordably and effectively.

Switches connect client systems and servers together to create a client-server network. Dell's PowerConnect™ switches make it affordable, by leveraging the efficiencies of our direct business model to offer you industry-standard technology at incredibly low prices. With a full range of reliable network switches, including unmanaged, plug-and-play switches as well as Fast Ethernet and Gigabit Ethernet⁵, Dell™ has the right switch to meet your business needs and your budget.

PowerConnect™

The Gold Technical Support Queue is designed to ensure 45 seconds or less average speed of answer, provided the customer contacts the correct, toll-free Gold Technical Support number. Hold times in the Gold Queue may be affected by multiple variables including, but not limited to: time of day, product release cycle, product recall occurrences and total number of Gold Technical Support customers.

All offers valid till 30th June 2006. See page 8 for important details.

INTEL® XEON®

The Intel® Xeon® Processor is designed for Dual Processing server platforms. Intel® Xeon® Processor-based systems offer outstanding platform dependability, value and versatility required for front-end and small business servers, as well as price-driven HPC.
